

Community Land Management Plan

6. Buffer Reserves

Acknowledgement of Country

We acknowledge and pay our respects to the Kurna people, the traditional custodians whose ancestral lands we gather on. We acknowledge the deep feelings of attachment and relationship of the Kurna people to country and we respect and value their past, present and ongoing connections to the land and cultural beliefs.

Overview of Buffer Reserves	4
Appendix A.....	54
Buffer Reserves Objectives, Performance Targets and Measures	54

Overview of Buffer Reserves

Buffer Reserves provide a barrier to control vehicular access to collector (and other) roads and landscaping to visually screen residential properties from busy roads and railways. May also provide formal or informal pedestrian and cycle links from surrounding areas to promote ease of access.

These reserves are undeveloped land parcels which requires minimal maintenance but are beneficial in regard to amenity and environmental value. These reserves may be suitable for encouraging native grasses along with planting larger trees for increased canopy cover.

Purpose for Which the Land is Held

Buffer Reserves are provided for one or more of the following purposes:

- Provision of a visual amenity along roads or railway corridors.
- Provide pedestrian and cycle links to promote ease of access.

Management Proposals for the Land

Council will manage development and maintenance of buffer reserves in accordance with all legislative requirements and Council's strategic documents which include the Strategic Plan, city-wide strategies, the Asset Management Plan and applicable masterplans.

Council's strategic documents are updated periodically. They provide guidance for the planning, management and decision making for Council's community land. A full reference list of the legislative requirements and strategic framework documents is contained within the Community Land Management Plans Overview.

Any proposals which are identified for any of the buffer reserves are subject to Council approval and available funding (external grant funding or Council financed).

Council's key strategic management objectives for buffer reserves include:

- Pedestrian and cyclist movement.
- Local amenity landscaping with primarily locally native vegetation specifically for screening and buffering from the noise and visual presence of nearby roads or railway lines.
- Tree canopy and shade provision.

Description of the Land

Within this plan a table will be included which will provide the following information:

- Name of land
- Street address
- Certificate of title, plan and allotment
- Owner of the land
- Dual category CLMP number
- Crown land trust or dedication granting the City of Playford as custodians.

Overview of Buffer Reserves

There may be occasions where a land parcel has been assigned multiple community land categories, referred to as “dual categories”. For example, the land parcel could have a dual purpose of a buffer reserve and also a drainage function, in these instances the land parcel would appear in both the Buffer Reserves and Drainage Reserves CLMPs. The table contained within this plan will indicate where there are dual categories for land parcels.

Further information including lease and licence details for land parcels are referenced in the Community Land Register available on the City of Playford website.

Leasing, Licensing & Permits

General information regarding Council granting of a lease, licence and casual hire permits over community land is contained within the Community Land Management Plans Overview.

Lease, licence or permit agreements may be granted which are consistent with this Plan. In the case of Crown Land, the agreement must also be consistent with the dedicated purpose of the land.

Granting of a lease, licence or permit must be in accordance with the conditions set out in Section 200 and 202 of the *Local Government Act 1999*.

Details of current lease or licence agreements are included in the Community Land Register available on Council’s website.

Objectives, Targets and Performance Measurement

Council is required within Community Land Management Plans to set out its vision for the land through objectives and performance targets, and how Council proposes to measure its performance against its objectives and targets.

Appendix A sets out the objectives, performance targets and measures for Buffer Reserves.

6. Buffer Reserves

Buffer Reserves Objectives, Performance Targets and Measures

Objectives: Specific and measurable actions needed to achieve Council’s vision for management and development of Community Land

Performance targets: The goal or standard to be aimed for or reached

How Performance will be measured: Action taken to determine if objective/target has been reached

Objectives	Performance Targets	How Performance will be Measured
Buffer Reserves are fit-for-purpose, safe and well-maintained.	Inspection and maintenance of buffer reserves to assess condition, performance and undertake maintenance where appropriate.	Inspection and maintenance carried out as per City Operation’s Annual Works Plan and Service Standards.
	Customer Requests in relation to buffer reserve maintenance are investigated and action taken where practicable.	Review Customer Request response actions and timeframes.
Native vegetation and canopy cover.	Mowing practices and tree planting to encourage native grasses and ground covers and increase tree canopy.	Periodic mapping of biodiversity and canopy cover.
