

VIRGINIA MAIN STREET UPGRADE WE WANT TO HEAR FROM YOU!

The City of Playford is planning to upgrade Virginia's Main Street to create a welcoming space for residents, businesses and visitors.

The project's key aim is to improve the appearance and function of the street and address issues associated with the street's footpaths and drainage.

We want to hear from the community about ideas and priorities for improving the Main Street and developing the Virginia Institute Park into a recreational space.

We encourage you to get involved and help shape how your Main Street will look!

We are also excited to advise that the undergrounding of the power lines in the Main Street has been approved and is scheduled to occur sometime between January and June 2020.

These works will be led by SA Power Network and will have an immediate impact on the look of the street.

Information about the undergrounding works will be provided to Main Street traders and the broader community as soon as more details are known.

How can I have my say?

■ COMPLETE A SURVEY

Visit playford.engagementhub.com.au to access online and downloadable surveys or surveys in Vietnamese, Italian and Greek

Return to Council by: 13 September 2019
