

City of Playford Disability Access and Inclusion Plan

Our City is a place that is accessible and inclusive for all.

Council is committed to planning for people with diverse abilities, including people with impairments that effect their mobility, vision and hearing; people with cognitive decline or mental health concerns; and people who learn or communicate differently.

Council recognises that a person's impairment or difference is only disabling if the environments they live, work, learn and play in fail to accommodate them. Council wants to ensure that future planning in the City is done with the needs of all abilities in mind.

Your views and ideas will help us develop a Disability Access and Inclusion Plan which will support all Council business and add value to Council's strategic priorities over the next four years.

We are especially keen to hear from people with a personal, family or professional experience of disability.

Thank you for taking the time to complete this survey. The information you provide will help inform the preparation of the Draft Disability Access and Inclusion Plan.
